

EPT

Energy Potential Technology

An innovative technological platform, able to maximize the active ingredients of natural substances and thus allow a biologically correct interaction with surprising results. EPT technology is a process that guarantees a natural, non-chemical and ecologically sustainable action as it is able to enhance existing substances in nature. It represents significant progress in the food, agricultural, livestock and industrial chemical industries, including the organic product segment and waste disposal. The use of EPT technology can replace the use of many chemical agents and toxic substances, guaranteeing safety and quality, increasing production and respecting the environments.

PHENOM
METABOLIC MIX

Metabolic MIX is a fast-acting restorative supplement based on vegetable proteins. Its formula derives from natural fermentations based on enzymes stabilized through EPT technology.

DESTINATION

Fast-acting restorative supplement for all types of farms, Specific for newborn and young animals.

FEATURES

Metabolic MIX is a fortifying supplement with a rapid action based on vegetable proteins. Metabolic Mix has a healing effect in cases of poisoning, bacterial infections, malnutrition or unbalanced nutrition, stress and abnormal behavior, all factors that cause problems of adaptation and regular growth. Metabolic Mix biologically stimulates the animal's defenses. Promotes their well-being. It helps in preparing the young animal for the transition to meat / milk production.

RECOMMENDED PROTOCOL

Administer orally or mixed with other compatible products 10 cc per 100 kg (animal weight), for newly born animals 1-2 cc by mouth.

COMPOSITION

Vegetable proteins and enzymes enhanced with EPT technology.

PRODUCT FEATURES

Consistency: Brownish liquid
Odor: Characteristic
Packaging: 1-5 liters and 1000 liters
Big-Bag
Shelf life: 1 year

Our products leave no residue and respect crops, livestock and the environment
